

AURORA MULTIMEDIA to DEBUT NEW 8 BUTTON IP WALL PANEL for INFOCOMM 2017

ORLANDO, FL June 14, 2017, (InfoComm 2017, Booth 2561) — Aurora introduces the DXB-8i, a new 8 Button IP wall panel at InfoComm 2017. The DXB-8i is a low cost 8 button single gang button panel designed to work with nearly any Ethernet, RS-232, or IR device on the market. The DXB-8i allows any Ethernet, RS-232, or IR string to be assigned to the press, release, toggle, and hold of each button.

The buttons can individually be lit red, green, or blue so in dimly lit areas it can be seen. Available in Decora® white or black, the DXB-8i is designed to match.

Low cost, low power, simplicity, and compatibility with just about any device on the market makes the DXB-8i the simple sweet solution of choice.

About Aurora Multimedia:

Aurora Multimedia products incorporate state-of-the-art technologies that surpass typical specifications and features. From the introduction of the industry's first non-proprietary, Web-standards-based IP control systems and touch panels, to today's advanced HDBaseT™ and IPBaseT® IP video distribution solutions – has made Aurora a dominant force in the AV industry. Advanced AV processors with scaling, multi-image rotation, and dual/quad display processing only add to our highly adaptive, diversified product line. Aurora provides solutions for a variety of global markets, including government, education, security, hospitality, corporate, and house of worship. www.auroramm.com
