CableWholesale offers competitive pricing to consumers and suppliers through manufacturing its cable and electronic products overseas and then directly importing them to the United States. By performing fluke testing on all of its products, CableWholesale ensures that consumers are receiving quality service. The company even offers free technical assistance and lifetime warranties on most of its products, displaying the utmost confidence in the work it does.

"InfoComm is a great platform to launch our products off of — there is a reason why so many exhibitors keep going back, and we are happy to be among them," said Sharon Jiang, Founder and CEO of CableWholesale. "We look forward to this opportunity to show the enormous AV community why we believe in the quality of our products and service."
