

Long-Serving Burbank Audio Video Equipment Store Introduces Intuitive Online Custom Cable Builder

BURBANK, CALIFORNIA USA – June 13, 2017

We are very excited to introduce our new “[Cable Builder](#)” that empowers you to build your custom cable assemblies from anywhere. Give us your desired specs and obtain a quote or simply place your order online. Intuitive to use, all you need to do is select your cable, connector types and labels, and you’re done! Your custom cable is available in 3-5 business days, hand-fabricated and fully tested.

At Pacific Radio Electronics we are proudly certified in [Belden REVconnect](#) and stock REVConnect Cores as well as connectors and termination tools!

Belden REVConnect is an unbelievably dependable and adaptable RJ45 connectivity system. Easily terminate jacks and plugs, shielded or unshielded cable, Cat 5e, Cat 6 and Cat 6A cable.

Visit us at InfoComm and learn about the latest AV, [data and networking solutions](#) at our booth 5287 between June 14-16 at the Orange County Convention Center in Orlando, Florida. Demo our custom cable builder, learn more about Belden’s RevConnect and enter to win one of our daily giveaways!

Get your badge scanned and be entered to win Apple AirPods, a Samsung Gear VR Headset, or \$100 in giftcards! Winners do not need to be present to win. We hope to see you at InfoComm 2017.

Here are the details again below: **Pacific Radio** | www.pacrad.com

Booth Number: 5287
