

ezTalks at InfoComm 2017: Innovative Video Conferencing Room Solutions and Software for a New Online Collaboration Age

ezTalks Will Unveil Its Brand New Video Conferencing Solutions at Infocomm 2017

HONG KONG, June 8, 2017 - ezTalks Technology Co., Ltd., the global leading video conferencing solution provider, revealed today that they will unveil their brilliant video conferencing solutions at Infocomm in Orlando. Following the successful events in Australia, Japan and Hong Kong in May, the company is now ready to release their frontier technology and unified communication solutions in Orlando at Booth 2791 from 14th to 16th June, 2017.

Under the theme of "Brilliant Video Conferencing", ezTalks will bring the full portfolio of video conferencing solutions including software solution, hardware solution and room solution, among which ezTalks Onion, the all-in-one solution, will be the highlight with outstanding features:

- **All-in-one design:** a device integrated with software and 1080p camera with 120° wide angle lens, full frequency HD speaker and dual stereo microphones;
- **Full featured functions:** screen & file sharing, whiteboard, annotation, recording, private & group chat, etc;
- **Quick set up:** simply connect TV HDMI and power cable to start without any need for on-site IT technician
- **Cost-effective price:** price is 50% less than traditional service providers like cisco, polycom, lifesize, etc.

Apart from that, ezTalks has also prepared the software solution, ezTalks Cloud, makes the company the first provider who enables 100 attendees online at the same time freely, perfectly suitable for large enterprise video conference. ezTalks VCS (On-Premise Video Conference System), the powerful, high-quality and highly secured video conferencing software solution, has been applied to various areas including government, military, transportation, finance, education and business. As for hardware, ezTalks VPE4000 for large meeting room and other endpoints like MCU and H.323 based HVPE3000 will also be revealed in this exhibition.

"Onion is the flagship product that launched for huddle rooms about 20 square meters," Director of ezTalks said. "Its all-in-one design will make the installation process easy and start a meeting within minutes. What's more users don't need to arrange any on site technician support any more. Visitors are welcome to experience this magical innovative solutions at Orlando."
