

## **Monitors AnyWhere Will Present a New Interface at the InfoCOMM in Orlando**

**Monitors AnyWhere is a leading developer and provider of digital signage solutions for large and small businesses and institutions. The company will be demonstrating their latest innovations at the InfoCOMM Expo in Orlando on June 14-16, 2017.**

**THE HAGUE, Netherlands – May 25, 2017 --** [Monitors AnyWhere](#), a leading provider of digital signage solutions, who develops software for the digital signage market, will be exhibiting new and significant features to its successful Monitors AnyWhere Connect multi-screen connectivity solution that has been selling worldwide.

"We are thrilled to present our latest innovations, which will significantly enhance the usability, flexibility and commercial attractiveness of Monitors AnyWhere Connect," says Roy Tal, product manager at Monitors AnyWhere. "The new functionality we introduce will allow our users to control their digital signage screens from any web device, which will allow high flexibility and ease of use. We will also present our new product – USB Wall, a game changer that will allow our customers to build a simple yet high quality video wall for an unprecedented low cost."

"Video walls are becoming very popular, and with the new USB Wall they will become in the reach of small and medium enterprises, with no need for deep IT knowledge or deep pockets," adds Roy, "With very easy installation and set up process, a friendly user interface and an attractive price we believe that it will quickly become an even more popular and present phenomena".

With 1,000 exhibitors and 40,000 attendees, InfoComm 2017 is the largest trade fair in North America for audiovisual communications. [InfoComm 2017 will be held at the Orange County Convention Center in Orlando, FL.](#)

Monitors AnyWhere will be showing off this technology during all three days of the show and will be located in the Digital Signage Pavilion, Booth 780.
