

Bluescape Teams with Sharp to Deliver World-Class Visual Collaboration Solution

Bluescape to showcase the Sharp PN-L803C interactive display running its visual collaboration software at InfoComm 2016, booth #N3065.

SAN CARLOS, Calif. and LAS VEGAS, June 7, 2016 /PRNewswire/ -- Bluescape, an innovator in visual collaboration software, announced today its software is available for the Sharp 80" Class (diagonal) PN-L803C AQUOS BOARD® interactive display system, extending the reach of Bluescape Software on market leading technologies. The combination of Sharp and Bluescape solutions takes interactive, visual collaboration to a new level in responsiveness, flexibility and stunning color and clarity.

"Bluescape removes the barriers to great work and empowers individuals and enterprises to visualize and share ideas in real time," said Nick Brown, vice president product and marketing, at Bluescape. "By partnering with market leaders such as Sharp, we offer our customers the very best options in high-quality interactive display technology to ensure an amazing, high-definition user experience for visual collaboration."

Bluescape software for Sharp AQUOS BOARD interactive displays is available for immediate use. For more information regarding pricing and specifications, call or visit www.bluescape.com. See the Bluescape solution live at InfoComm16 by visiting booth #N3065.

"Sharp delivers a breakthrough in capacitive touch-panel technology that revolutionizes the way you collaborate with colleagues or classmates. When combined with the power of Bluescape's visual collaboration workspace, enterprises can come together to make decisions and drive better outcomes," said Gary Bailer, director of product planning and marketing for Pro AV products. "The breathtaking visual crispness together with a feather light touch makes using the AQUOS BOARD interactive display a pleasure to write, touch and interact with."

About Bluescape
