

## **Epson Expands BrightLink Pro Office Applications with All-In-One Interactive Solutions** **Easy-to-use BrightLink Pro All-in-One Display and Mobile Work Surface Expand Epson's Professional Collaborative Solutions**

LONG BEACH, Calif., June 9, 2016 /PRNewswire/ -- Epson, the number-one selling projector brand worldwide, today announced additional solutions to the [BrightLink® Pro Series](#) to further expand the application of the products in the office environment. The BrightLink Pro All-in-One Interactive Display comes equipped with a Da-Lite IDEA screen and the BrightLink Pro All-in-One Interactive Table comes with a motorized surface to simplify the way people work and collaborate together. These versatile, easy-to-use solutions are designed to increase productivity and meet the collaboration needs of today's office environments. Epson will be demonstrating the new all-in-one interactive display and table at InfoComm 2016 in Las Vegas from June 8-10 in its booth, #C6333.

"Epson strives to help improve the way technologies, people, and their ideas converge into a seamless digital experience to optimize productivity," said Remi Del Mar, product manager, Epson America, Inc. "Technology is changing how we ideate, communicate and conduct meetings, and the prominent bring your own device trend is creating a more open and collaborative office environment. And Epson's new interactive BrightLink Pro platforms provide an innovative solution for today's evolving huddle space and meeting room needs."

The BrightLink Pro All-in-One Interactive Display includes an 87-inch or 100-inch Da-Lite IDEA screen with 2.5 gain for optimized visibility and superior image quality. Packaged in a sleek design and premium look, but designed for ease of installation and image adjustment with preset heights, the BrightLink Pro All-in-One Interactive Display is an ideal solution for a wide variety of meeting rooms. The included finger-touch unit offers a digital pen or finger touch option to write, collaborate, and brainstorm on the display in real time whether in the meeting room or remotely from multiple devices.

The BrightLink Pro All-in-One Interactive Table features a mobile, motorized work surface to increase the BrightLink Pro's versatility and application around the office. Users can project presentations, illustrations, animations, and more onto the sleek desktop table, and use the digital pen or finger touch capabilities to write and collaborate onto the projected document. The 50" x 67" hard top design features adjustable height for user's comfort and increased flexibility in design, use, and deployment throughout the office. An ideal solution for promoting higher levels of engagement and productivity, the BrightLink Pro All-in-One Interactive Table is easy to use and a model collaboration tool for small groups.

### **About BrightLink Pro**

Designed to revolutionize meeting rooms and study halls, the Epson BrightLink Pro 1430Wi and 1420Wi are true collaboration devices, integrating the utility of a whiteboard, projector and interactive display to transform any flat surface into a digital whiteboard and interactive space that doesn't require a computer or software. Users simply turn on the projector and start writing, with no PC required. Using the Whiteboard Sharing Tool, up to 15 participants can join a whiteboarding session directly from any mobile device<sup>1</sup> with a web browser, or from another BrightLink Pro – without using a software or app.

Unlike traditional whiteboards, with the Epson solutions users can add up to 50 blank pages for virtually unlimited writing space, as well as save, print and email notes. For users editing and annotating on top of existing image or document files, these models also deliver object tools such as copy, paste, crop, and rotate for ease of use. The BrightLink Pro 1430Wi supports gestures<sup>2</sup>, up to six fingers for annotations, as well as dual-pen support. It's also ideal as a videoconferencing display, offering split-screen<sup>3</sup> capabilities to view two sources side-by-side.

### **Pricing and Availability**

The BrightLink Pro All-in-One Interactive Display bundle, incorporating an 87-inch and 100-inch screen, is available now through select Epson resellers. The BrightLink Pro All-in-One Interactive Table bundle will be available in July 2016.
