

CHETU TO EXHIBIT AT INFOCOMM IN ORLANDO, FL

Custom Digital Media Software Development at Booth #3291

Plantation, Fla. (June 6th, 2017) – Chetu is excited to announce that they will be exhibiting at Infocomm in the Sunshine State, Orlando, FL. The conference and tradeshow takes place on June 14th through June 16th at the Orange County Convention center on 9800 International Dr.

"Attending Infocomm allows everybody in attendance to venture into all industries," said Frank Wallace, National Account Manager for the Digital Media industry at Chetu. "Our goal is to present Chetu's Digital Media software solutions to those looking for a viable alternative to the out-of-the-box solutions on the market that may not meet their business needs."

Infocomm is for companies who plan for, decide on, design, purchase, install, repair or have any part in what's seen or heard at your organization, classroom, retail location, corporate office, or if you work in live events, entertainment, sports, hospitality, or houses of worship, InfoComm is THE event for you. With the largest collection of products, training, networking, all under one roof, InfoComm is your once-a-year opportunity to see, hear, and talk about the exciting projects that are fueled by AV technology.

About Chetu, Inc.:

Chetu optimizes development lifecycles by offering dedicated developers with specialized technology and industry expertise. Chetu's award-winning software development solutions span the entire Digital Media Industry including broadcasting, photography, digital asset management, digital rights management, video, publishing, and more.
