

ASHLY'S DIGIMIX24 "\$150 INSTANT REBATE PROGRAM" ENDS JULY 31st

WEBSTER, NEW YORK – JUNE 2017: The Ashly Audio digiMIX24 mixer leverages Ashly's forty-plus years of building powerful audio gear to give the world a 24-channel/14-bus digital mixer with comprehensive equalization and dynamics, 32-bit/48kHz fidelity, flexible inputs and outputs, and optional USB and Dante connectivity. Ashly's digiMIX24 digital mixer offers a professional live interface, intuitive user-control, and versatility. That's hardly all: the digiMIX24 embodies Ashly's proud legacy of pro-quality audio processing, bulletproof reliability and surprising affordability. It's a game changer that was worth the wait.

Between June 1 and July 31, 2017, Ashly will offer an Instant Rebate, which will immediately drop the digiMIX24's already low price by \$150, from \$1249 to \$1099.

"We're very proud of what we accomplished with the digiMIX24 – it's more powerful than it looks," said Anthony Errigo, director of marketing communications at Ashly Audio. "digiMIX24 offers the convenience of digital mixing, but with the usability and musical fidelity that Ashly is known for. Ashly began over four decades ago building robust mixing consoles in classic rock's heyday when everything in front of you was completely hands on – physical knobs and buttons – everything a live control surface should be. digiMIX24 offers all of that and more – and sounds great doing it."

In addition, the digiMIX24 comes with Ashly's comprehensive five-year warranty.
